PROSPECTING

Who do you contact after you've called all of your sales leads? How do you define money-producing activity? How do you organize your contacts so you can close more sales? What do you say to that person you met 8 months ago and want to get an appointment? Stop trying to sell people that will never buy and learn how to ask questions that establish your value. Implement Tamara's newest innovative strategies:

- Know who to call, when to call and what to say to win business.
- Sales Statistics (networking, referrals, cold calling, etc.) – Success ratios and how to convince people to buy from YOU.
- Get Organized – Master paper and technology so you aren't a professional paper shuffler.
- Don't become a professional visitor. Establish value so your prospects invite you in for a meeting.
- Create a follow-up structure so your prospects are positioned to buy.
- How to revive a dead lead.
- Ask smarter questions that lead to prospects deciding and buying.
- Words to Avoid – Understand how sales people talk prospects OUT of an appointment.
- Prospecting is making new friends. Become a professional friend finder!

REFERRALS

Persuasion is the process of getting your customers to associate the act of “not buying” to the feeling of pain. Do you know how to influence your clients to persuade their friends to buy from you? Referrals have nothing to do with the salesperson or their product/service—and everything to do with whether or not you will make your clients look good to their friends. Learn to gain leverage so that referring you becomes their burning desire!

- Convert one sale into multiple sales – the easy way to get referrals.
- Discover how to create an environment in which the right people seek you out!
- Ask for and win vertical referrals the classy way – from every client.
- Position yourself to be referred up and make the client excited about referring you.
- Learn how to get a 100% call back rate on referral business.
- Create a referral form and triple your business.
- Overcome the dreaded response, “I’ll have them call you.”
- Get multiple referrals from every client and convert them into business.
- Get what you ask for – and ask for more!

DISCIPLINE

Do you believe your current income is as good as it's going to get? Do you procrastinate? Is your energy level based on what the economy is doing or what YOU are doing? Learn to create a future worth living for and unlock the mental distractions that hold us back from becoming the best version of ourselves. Get a mindset makeover! Have you ever met an enthusiastic failure? Apply the book of wisdom to your sales career and master your approach to deadly distractions. Each team member will discover these takeaways:

- Incorporate Power Words – Learn influence techniques to control the emotions of your clients.
- Gain greater power and influence over yourself.
- Nine ways to change behavior for optimal performance.
- Turn knowledge into action – max out at your potential.
- Mindset Makeover – How to achieve the goals you set.
- Changing beliefs that don't serve you. Learn how to model successful people.
- It's not about your resources; it's about how resourceful you are.
- Tap into your inner entrepreneur and master your mindset.
